

Arizona Office of Tourism (AOT) Update By Goal - 2012

Goal 1: Make it easier for older Arizonans to access an integrated array of state and aging services.

For older Arizonans to fully participate in all aspects of community living, they and their families need access to information, resources, and services through a variety of venues. To this end, public and private organizations can play a leadership role in making it easier for older Arizonans to find and use the services and resources they need, no matter where in Arizona they may live.

Objective 1.1: Provide information and promote understanding of options, benefits, and available services through a range of multi-media formats.

	Revisit and modify the content and format of the agency Web site with possible options of large font and readability using talking browser programs. Develop large print options for the Official State Visitor Guides.	AOT		Efforts Ongoing	Web browsers provide viewers with choice of view size for readability. Web site redesign minimizes use of column formats to create better compatibility with screen reader units.

Goal 2: Increase awareness and understanding of aging issues and help prepare Arizona for an aging population.

The role of education cannot be underestimated in planning Arizona's future. Education permeates nearly every section of the Aging 2020 Plan. Through education, the fears, myths and misconceptions about aging can be changed so that older adults, businesses, providers and Arizona, as a whole, can be free from artificial barriers that prevent all from realizing the full potential of our changing population.

Objective 2.1: Provide culturally appropriate information to older adults and their families to promote a broad understanding of issues that arise as we age and how to address them.

AOT will continue to plan and execute marketing campaigns using research and studies to continue to attract this demographic and the aging population as well.

Objective 2.3: Educate businesses, providers, and other private entities about the value and needs of senior Arizonans.

Goal 5: Strengthen Arizona's economy by capitalizing on an integrated and well-trained informal, paraprofessional, and professional workforce.

With the first wave of Boomers attaining retirement age in 2006, both public and private sectors need to develop work environments and coordinate opportunities that maintain a strong, diverse paraprofessional and professional workforce with strategies that include support for workers and their family members with caregiving obligations.

Objective 5.3: Promote a coordinated workforce development approach between public and private entities to benefit from the capabilities and experience of a mature workforce.
